चौरजहारी अस्पताल रुकुम  
**HDCS - Chaurjahari Hospital Rukum**

Date: 31th November, 2011

Dear Mrs. and Mr. KOSS,

All the medical and administrative staffs of our hospital express hereby our deep appreciation and thankfulness for your gift of the very precious digital x-ray system that Mr. Klaus Berger has successfully installed in our hospital.

Introduction of Computer Radiography has already shown to be very promising towards the better radiological diagnosis of our patients' illnesses. The system has also helped the hospital's financial status to grow in the positive direction. The system has specially shown a lot of benefit to our patients who are mostly uneducated and do not understand the importance of bringing back the old radiology films during the subsequent follow up with their doctor. We have confidence that with this system the service to our patients will be greatly improved.

We do would also like to express our gratitude to Mr. Klaus Berger come to Nepal and install the system. He is already the friend of all our staff here. We are thankful now and forever for the assurance of future assistance from KOSS MEDIZINTECHNIK.

Sincerely,

Kapil Jaisi
